

# Nursing and Science Building

---

## The Project:

The proposed new School of Nursing/Science Building will be located in the center of Camden facing the new plaza in front of City Hall at the corner of Fifth and Federal Streets. This site is uniquely well situated to encourage public transportation ridership, as it is located adjacent to the PATCO Transit Station.

## Enhancements:

The School of Nursing/Science building, 119,741 GSF, will have state of the art teaching spaces consistent with the most current pedagogical trends in higher education, ranging from case study style lecture halls to SCALE-UP “Discovery Labs”. Shared student areas between Nursing and Science include an undergraduate lounge, a commons with food service, graduate student lounge and numerous group study rooms and collaboration spaces. This project will cost \$62.5M.

Specialized School of Nursing instructional spaces will include a range of clinical skills labs that simulate a variety of health care environments. Specialized simulation spaces for advanced teaching such as patient simulation labs and a standardized patient health assessment suite will be included. Each of the clinical skills and simulation spaces will be equipped with advanced audio visual technology designed to record student performance for both testing as well as debrief with faculty and peers.
