## **NEWS RELEASE**

FOR IMMEDIATE RELEASE:

### **UNIVERSITY FACILITIES ANNOUNCES NEW ADDRESS**

PISCATAWAY, NJ, DECEMBER 1, 2015--University Facilities & Capital Planning moved its offices to Knightsbridge Road in Piscataway, a three-story office building purchased by Rutgers University. This is the first in a series of moves, relocating many of the university's administrative functions creating synergies, and efficiencies to better serve the community.

The new address is 33 Knightsbridge Road, Piscataway, NJ 08854. Facilities employee phone numbers remain unchanged.

Facilities employees had previously been housed in various locations around the Rutgers campuses. With easy access to all major highways, the new office is centrally located to the entire university system.

"The move to Knightsbridge Road provides University Facilities with a central office location, a more collaborative work space, and a more efficient space for managing the unit's businesses," said Antonio Calcado, Vice President of University Facilities & Capital Planning.

###

Rutgers University is comprised of four main campuses totaling 27 million square feet and 1,009 buildings throughout the state. University Facilities & Capital Planning is responsible for transportation services, construction, renovation, maintenance and repair of all buildings and grounds found within the campus perimeters and outlying areas: [facilities.rutgers.edu](http://facilities.rutgers.edu).
